(Now Rajasthan State Centre)

Workshop and Symposium on Lighting Design

May 13, 2009, Jaipur

ISLE Jaipur Local Center successfully organised a half day workshop and symposium on “Lighting Design” on 13.05.2009 at the campus of Jaipur Engineering College, Kukas, Jaipur-Delhi Highway. It covered the aspects related with photometric design achieved with the help of new computer software instead of conventional methods used in illumination design. The workshop was attended by III/IV year electrical engineering students, faculty and ISLE members.

The Workshop focused upon educating the engineering students about the lighting industry – needs, wants and opportunities.

Dr G.D. Sharma, Director JEC welcomed the ISLE members and thanked them for organising the event.

Dr. S.C. Begh the Vice Principal also thanked ISLE and asked the students to take advantage of this unique initiative.

Chairman ISLE JLC, Er. R.S. Saxena in his address highlighted the task being undertaken by ISLE and how this could benefit the students and the institution, whereas Secretary, Er. A.K. Jain emphasised the need to concentrate on core engineering and educated them on the career opportunities in the lighting and energy sector.

The presentation on “Lighting Design” was made by Er. Bajpei, ISLE Member. A case study was also undertaken showing that how economy could be achieved in the seminar hall by designing of lighting through appropriate software. A copy of the software was also gifted to the institution as a gesture of goodwill.

Er. Sidhique, Head, Electrical Engineering Department, JEC gave the vote of thanks.
